WAREHOUSE LABELING & MARKING

Simplify the Complicated

Not sure where to start?

Reach out! Our team is committed to offering you documented cost savings along with creative and technical guidance for your high quality warehouse identification systems.

Don't let materials or sizes limit you!

The possibilities are nearly endless. We can create completely unique labels, signs, and tags with sequential numbering to barcode, QR Codes and color combinations on a vast array of materials, in almost any size or shape.

Easy to start, easy to plan, easy to order!

1. **Develop your idea** - Do you need custom logos, sequential numbering, QR/Barcodes...?
2. **Select your Material** (Material selection on pages 6-9)
3. **Determine your placement, size, and colors**
4. **Contact us!** We will provide a worksheet to help you capture all the necessary details to provide you with the best solution.

The Benefits

- No set-up fees
- Any barcode language and symbology
- Any lettering or font to fit your design
- Full-color graphics at no additional charge

*color restriction on select materials see materials pages

Call or Email us!

We will put all your specifications together to create your personalized warehouse labels, signs, and tags to meet your exact needs.

Warehouse Sign Solutions

AccuformNMC offers solutions for every application in your warehouse. Choose from the following materials for your hanging & projection signs, floor & rack labels, long-range scanning, and more.

Projection Signs

- Projection style signs allow for greater visibility from multiple angles
- Create visibility by numbering or identifying your warehouse aisle
- Includes holes for mounting or can also be mounted with double-sided tape

3D Projection

- Plastic sign projects 45° from the wall
- Provides optimum viewing from front and sides

90D Projection

- Plastic sign project 90° from the wall
- Viewable from either side
- (Stock options available on pg 21)

180D Projection

- Plastic sign curved in a half-circle to identify locations and resources
- Message is repeated to be viewable from any direction
- Ships flat, minimizing costs and wasteful packaging

Hanging Signs

- Hanging signs provide high-visibility and promote warehouse safety awareness
- Helps identify departments, warehouse locations or staging areas
- Different options available for different application needs

Acc-ute Hanging

- Plastic, acute angle is ideal for bulk and staging area identification
- Hang or mount to ceiling for perfect scanning angles
- Includes holes or double-sided tape for mounting

Acc-ute Double Hanging

- Plastic double-sided sign provides visibility from multiple sides ideal for bulk staging areas
- Upside-down triangle for easy scanning on both sides of aisle
- Includes hole or double sided tape for mounting

BIGShape™

- Light corrugated plastic with high visibility
- Identify warehouse locations with custom shapes and colors
- 30" tall and viewable from multiple angles
- Hanging hardware sold separately
- (Stock messages available on pg 21)

Custom 3 & 4 Faced

- Made of lightweight Plastic-lite
- Packaged flat and easily snaps together with fasteners
- Ideal for intersections or aisle identification

3-Dimensional Department

- Lightweight, durable PVC will not dent or scratch
- Includes one, 25-ft. length of jack chain and two S-hooks for ceiling mount
- Best for warehouse department identification
- (Stock messages available on pg 21)

Rack, Shelf & Bin Location Labeling

Adhesive Vinyl

- Great for barcoding and tracking inventory in your warehouse
- Ideal for indoor and outdoor use, up to two years
- Easy-to-clean, wipe-off surface
- Permanent acrylic adhesive back with peel-off liner

Poly Premium Adhesive

- Durable, polycarbonate label with adhesive backing and round corners
- Subsurface print protects message or barcoding from accidental pallet damage and puncturing

Removable Adhesive

- Self-adhesive label can be repositioned multiple times to any smooth, clean surface
- Ideal for general indoor, temporary applications and flexible for curved surfaces
- Apply to warehouse shelves, machinery, equipment, tools, bins, and short-term applications

*Note: adhesive develops a strong bond to the surface over time.

Reflective Adhesive

- Reflective label with embedded, retro reflective lens for daytime to low-light and nighttime visibility
- Wipes clean of dirt, dust, and grease
- Designed for upper racks and/or hanging plastic signs, and long range scanners

Unrippable Adhesive

- Flexible plastic label strong enough for multi-level racks indoor or long-term outdoor use
- Extreme durability prevents accidental damage from pallets and puncturing
- Resistant to chemicals, tears, abrasions and weather

Magnetic

- Designed for repeated label relocation
- Flexible magnetic material applies to curved surfaces without adhesive
- Ideal for general-duty, indoor, temporary applications

Asset Labeling

- Convey critical information while maintaining clarity
- Apply to equipment, machinery, and tools
- Excellent choice for asset tracking and product identification

Poly-Destructible

- Adhesive bonds to most surfaces
- Special coating protects the image from cleaning and mild abrasion while still allowing for label destruction
- Prevents unauthorized removal and/or reuse of the label

Poly-Tamper Evident

- Polyester subsurface printed label
- Resistant to mild solvents, caustics, acids, and abrasion
- Discourages theft and tampering of property
- Peeling of label leaves VOID text on item surface
- Label cannot be reapplied, rendering it useless

Additional Specialty Label Materials - Contact us for details

Poly-Protect Labels

- Labels with permanent pressure-sensitive adhesive back
- Resistant to light grease, dirt, chemical splash, and cleaning solutions
- Durable label with protected subsurface print ideal for bar codes
- Adheres to uneven and slightly oily surfaces
- Standard, Plus and Premium options available

Anodized Aluminum (Labels & Plates)

- Labels made with aggressive permanent adhesive back and plates are thick, anodized aluminum
- Both are resistant to abrasive solvents, cleaning solutions and extreme temperatures up to 300F
- Sealed with anodic layer for long lasting readability

Metalized Polyester Labels

- Durable, thin, polyester with silver metallic finish
- Gloss over-laminate for additional protection
- Adhesive bonds well to plastic and metallic surfaces

*Note: a white box will be printed behind barcodes for scan quality.

Dasko Label A Peak Technologies Brand | 866-286-6500

LED Virtual Sign Projectors

Transform old floor signs with LED Virtual Signs!

The ideal solution for high-traffic areas. Project safety messages and images on any floor or wall surface, walkways, drive lanes, work areas, and entry points.

- Projector contains CREE high power LED chip, long-life 30,000 hr. energy-efficient LED bulb
- Projector includes interchangeable lens disc insert (additional lenses sold separately)
- 9" x 6" x 5" housing case is heavy-duty cast aluminum
- Air cooling technology prevents overheating
- Remote control & mounting kit included
- Projected image can rotate or hold in one position
- IP65 rated for damp environments.* CE and RoHS certified
- Operates on 110V with 3 ft. power cord and 3-prong plug

*Not recommended for outdoor use

Laser Line Projector

Don't paint your line - project it!

Brightly colored laser lines are the ideal safety solution for marking aisles and walkways in warehouses, production floors, and manufacturing facilities when standard floor tape or paint won't hold up.

- Project laser line onto the length of the floor surface to alert others of safe traffic areas for pedestrians and forklifts in indoor and sheltered outdoor areas
- Each projector casts a single line and creates a projected line up to 36-ft
- Includes adjustable covers at the lens to shorten laser line lengths if needed
- Compact, lightweight aluminum projector (7 5/8" x 6 5/8" x 4 3/8") contains a 260 milliwatt(mW) laser diode (Class 3B). Mounting bracket included.
- Operates on 110 VAC/60 Hz) power supply with 12 VDC power supply plug and 5-ft cord.
- Average projector lifespan approximately 9600 hrs. (2.5 years)
- Recommend mounting height from floor range is 22 to 26-ft.
- Operation temperature range -4° to 104°F
- Operation humidity range 20 – 90% RH
- Available in **RED (VPL122)** or **GREEN (VPL111)**

Unit

Each

To Calculate Line Projection Length:

Mounting Height (in feet) x 2.4 = Approximate Line Length

For longer, continuous line lengths, mount additional projector(s) at intervals to overlap the ends of the lines for continuous and relative consistent line brightness.

Line width is wider on higher mounting height.

Example: 6 1/2-ft H = 15 3/5-ft L x 3/4" W

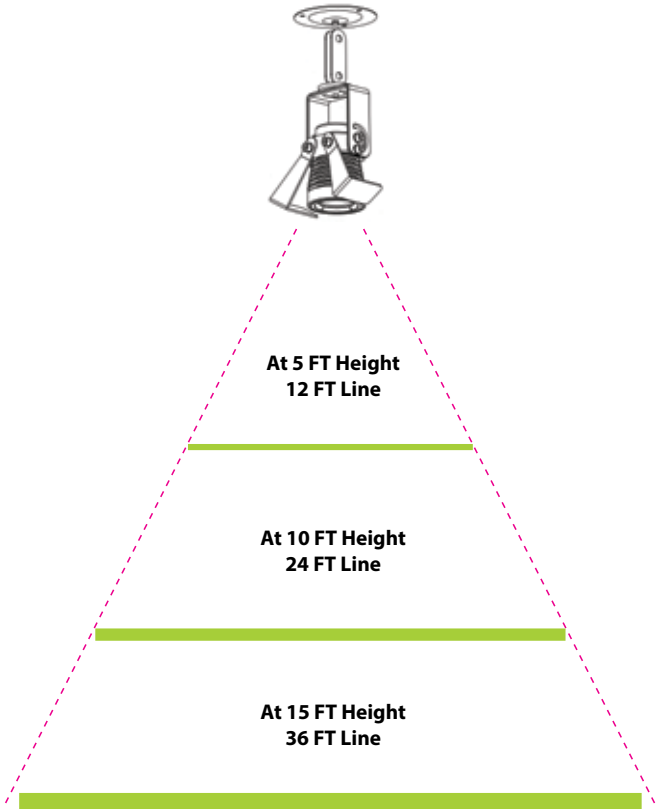

Projection Lengths

At 5 FT Height
12 FT Line

At 10 FT Height
24 FT Line

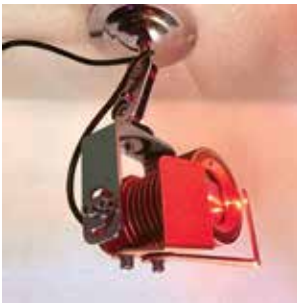

At 15 FT Height
36 FT Line

*Multiple projectors required for parallel lines.

Heavy-Duty Floor Marking Strips

The best choice for superior durability, performance, and easy-to-apply Floor Marking solutions for your industry!

Durable strips stand up to everyday floor abuse, including forklift traffic.

- Strips are made with 55-mil thick polyethylene with an aggressive polypropylene adhesive backing
- Beveled edges reduce tears and lifts from pallet dragging
- Full adhesive back forms a solid bond, eliminating liquid from seeping underneath
- Easily applies and bonds to a variety of clean sealed, and non-coated surfaces
- 48-inch long strips allow you to keep lines straight
- Strips are easily trimmed to needed length or to create corners
- Perfect for the Set in Order phase of 5S implementations
- Service temperature range: -90°F to 168°F
- Additional colors available
- Contact us for Custom print, size, and shape Tough-Mark™ Strips

Safety Marking Tapes

Mark specific areas to promote safety and identify potential hazard areas with visible color tapes.

Waterproof and wear resistant 6 mil vinyl tape applies easily to clean, smooth, dry surfaces with a synthetic rubber resin adhesive and has a temperature resistance of -20°F to 175°F. Perfect for:

- Color-coding
- Aisle marking
- Duct sealing
- Abrasion protection
- Joint sealing
- Pipe wrapping
- Light bundling
- Packing
- Safety marking

Reflective Safety Marking Tapes

With excellent visibility and rated for 5-7 years of outdoor life, these reflective tapes meet ASTM specification D4596-01 Type 1. This 6 mil vinyl tape applies easily to clean, smooth, dry surfaces with a synthetic rubber resin adhesive. Uses include:

- Poles
- Barricades
- Fences
- Buildings
- Roadway hazards

Key Features

- Available in a variety of materials to match your environment
- 4 color options available with your choice of either black or white tool shadows
- Shadow Board Dimensions: 68"H x 30"W
- Boards include mounting hardware for tools
- Some assembly required; Instruction and assembly hardware included
- Mobility designed to reduce physical stress or work-related strains
- Promotes tool accessibility at point of use

Benefits

- Maximizes efficiency, organization and accessibility
- Minimizes wasted travel time to supply rooms/closets
- Provides easy and fast janitorial solutions without added physical stress
- Provides an aesthetic assembly of tools

⚠ WARNING: Cancer and Reproductive Harm – www.P65Warnings.ca.gov

Combo Kit Includes:

Choose Mobile Cart or Wall Mounted

- 1 Handheld Dust Pan
- 1 Upright Dust Pan
- 1 60" Push Broom Handle
- 1 24" Push Broom Head
- 1 Brush
- 1 Angle Broom

Combo Kits are typical maintenance tools (not color coordinated)

Packaging Area Store-Boards™ and Combo Kits

Incorporating 5S principles in your stock and shipping areas is a breeze when utilizing Store-Boards™. Keep your areas neat, organized, and improve efficiency.

- Store-Boards™ are made of Ultra Aluma-Lite™ and protected by Sign Muscle® Liquid Laminat (material description, pg. 10)
- Select from two Store-Board™ and shadow color options
- Combo Kit includes typical packaging tools
- Store-Board™ and Combo Kits include zinc-plated hardware for tools, plastic pockets, and document clip holder
- Choose small, 24"H x 22"W or large, 24"H x 36"W styles
- Features 1/2" rounded corners and 3/8" mounting holes

Small Combo Kit Includes:

- 1 Store-Board™
- 1 Tape Dispenser
- 1 Stretch Wrap Dispenser
- 1 Safety Knife
- 1 Pair Cut-Resistant (Level 2) Gloves

Large Combo Kit Includes:

- 1 Store-Board™
- 2 Tape Dispensers
- 1 Stretch Wrap Dispenser
- 1 Safety Knife
- 2 Pair Cut-Resistant (Level 2) Gloves

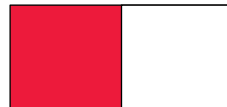

Board Color/Shadow Color Options:

Blue/White
BUWT

Blue/Black
BUBK

Red/White
RDWT

Red/Black
RDBK

To order, add color combination code (Store-Board™/Shadow) to part number. Example: **PSB720RDBK**.

Mobile Cart Solutions

Push 55 Compliance or Communication Where it is Needed Most.

Mobile carts provide a maneuverable solution to perfectly support the organization of cleaning equipment, tools and more within the workplace, in addition to delivering point-of-need communication.

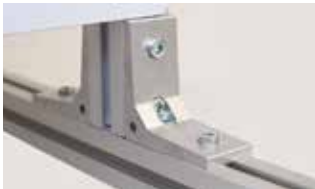

Available in three sizes, mount stock or custom shadow or KPI boards to these anodized aluminum frames with casters and move from workspace-to-workspace as needed.

About our Mobile Carts

- Three popular cart sizes
- (4) Swivel, locking casters; zinc-plated steel housing
- 2" diameter rubber coated wheels
- Some assembly required; instructions and assembly hardware included
- Mobile Carts can hold two boards, one per side
- MC02 fits our our Clean & Mop Store-Boards™. Sold separately, see pg 24
- Custom boards can be designed to fit mobile carts

Item No.	Size	Unit
MC01	68" x 30"	Each
MC02	72" x 36"	Each
MC03	72" x 47 1/2"	Each

PERSONALIZE IT! ...In 4 Easy Steps

STEP 1

Choose Your Material

General Purpose Composite/Aluma-Lite™

Industrial Grade Aluminum

Pro Series™ Acrylic/Accu-Shield™

STEP 2

Measure

Measure the space where your shadow board will hang. Or let us know if your board will need to be mounted to a mobile cart.

STEP 3

Tell Us About Your Tools

Option 1

Take a clear, straight on picture of each tool next to a ruler. Provide us with a general overview of the estimated size of the board need.

Kobalt 3-Blade Utility Knife
Item #365654 Model # 55908

Option 2

Provide a list of tools along with their manufacturer, part number, and description.

STEP 4

Provide us with:

Your Logo

High res/vector art

Your Colors

Background, shadow, font colors

Your Message

Tool names, part numbers, department

5S STORE-BOARDS™

A Place for Everything and Everything in its Place

DID YOU KNOW?

Properly deployed shadow boards can reduce administrative and production costs – increasing profitability at your location.

Earplug Dispensers

- Safety green top and front pocket to draw attention
- Wall-mount or place on tabletop
- Small holds 100 pairs
- Large holds 200 pairs

Item	Style	Size	Unit
AEP-4	SMALL	6" x 9" x 12"	Each
AEP-D	LARGE	12" x 9" x 12"	Each

Sound Level Decibel Meter Safety Signs

Continually display noise levels to alert workers of the potential need for hearing protection.

- Supports OSHA 1910.95 hearing conservation program
- Measurement range from 30 to 130 dB
- Measures accurately to ± 1.5 decibels
- Requires no additional calibration or settings
- Three digit 1.5" high red LED digital numbers are viewable from 75-ft. away
- Lightweight 1" deep durable aluminum construction protected by SignMuscle™
- Operates on 110 VAC with 5-ft cord plug to DC 12V, 2A power supply
- Working environment: 32-104°F, 10-70% RH*
- Indoor use only

*Not recommended for high humidity environments

Globally Harmonized System (GHS)

GHS Labels

The GHS label identifies the components of a GHS label. Actual label design and layout may vary and are subject to the discretion of the competent authority.

Product Identifier

Should match the product identifier used on the Material Safety Data Sheet.

Pictograms

Standardized pictograms used to convey specific hazard information.

Precautionary Statements

Precautionary statements are used to describe measures to minimize or prevent adverse effects resulting from exposure.

Supplier Identification

The name, address and telephone number of the manufacturer or supplier.

GHS Pictograms

Signal Word

Indicates the relative level of the hazard severity. "Danger" and "Warning" are the GHS signal words.

Hazard Statements

A phrase describing a hazard class and category that describes the nature of the product hazard.

1.4.19.4.1 Location of GHS information on the label
The GHS label information should be located in the following order on the label:
1. Product Identifier
2. Signal Word
3. Hazard Statements
4. Precautionary Statements
5. Pictograms
6. Supplier Identification

The GHS label information should be located in the following order on the label:
1. Product Identifier
2. Signal Word
3. Hazard Statements
4. Precautionary Statements
5. Pictograms
6. Supplier Identification

4 3/10" x 4 7/10" MPC234

Drum & Container Labels

- Available with peel-off liner in: Flexible Adhesive-Poly Sheet
- Labels measure 6" x 6"
- Pack of 25

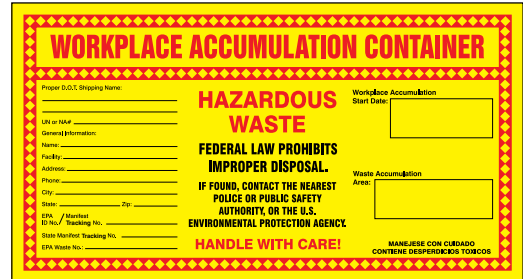

MHZW505EVP

6" x 6" Stock

MHZW11EVP

6" x 11" Stock

MHZW22EVP

Compliance Counts:
DOT Compliant: Hazardous Material Shipping

Compliance Counts:
EPA Compliant

See SKU suffix to identify material options:

2 1/4" x 5"

MHZW21EVP

6" x 6" Stock

MHZW45EVP

4" x 6" Stock

MHZW15EVP

Understanding Warehouse Terminology

Glossary of Terms

1D Barcodes	1D Barcodes - Are 1 dimensional linear codes only containing alphanumeric data. Each character in the code represents something different about the product and a database provides information on what each character means.
2D Barcode	2D Barcode incorporate rectangles, dots, hexagons, and other geometric patterns to form scannable squares and rectangles.
3D Loading	3D loading is a method of space optimizing designed to help quickly and easily plan the best compact arrangement of any 3D rectangular object set (boxes) within one or more larger rectangular enclosures (containers). It's based on three-dimensional, most-dense packing algorithms.
ABC Analysis	A classification of items in an inventory according to importance defined in terms of criteria such as sales volume and purchase volume.
Asset Management	Asset management is a process for tracking and monitoring a company's fixed or moveable assets for financial accounting, preventive maintenance, and theft deterrence purposes.
Asset Tags	Are attached to both movable and fixed assets for useful life identification, inventory control, "work-in-process" (WIP) and Computerized Maintenance Management Systems (CMMS) tagging. Physical items of property are typically defined as either:
Asset Tracking	The method you use to monitor and track your company's physical assets.
Barcoding	Is a common form of automatic identification using labels with imprinted data to track and monitor a particular product or object.
Bent PVC Retro- Reflective	These angled-signs are used mainly for bulk-storage location marking. Different options available for different applications.
Bulk Storage Location Marking	Where certain equipment, supplies or raw goods are stored as part of a facility's fulfillment or manufacturing operations.
Cold Storage	Cold Store Rack & Shelf Labels have a cold-temp permanent acrylic adhesive and offers low temperature performance. They are designed to resist moisture that often occurs from repeated freeze and thaw cycles.
DestructibleVinyl Labels	Destructible labels are used for indoor assets when a high level of security is needed. Security labels are made to fracture if tampered with. Destructible Vinyl Labels have a low to moderate resistance to heat, scuffing and chemicals.
Fixed Assets	Known as Infrastructure Assets, tunnels, water and sewer systems, lighting systems, buildings, equipment and machinery that is attached to a building.
Foil Asset Tags	Made of 100% aluminum with graphics sealed into an anodized layer create a remarkably durable asset label. Combined with super strong adhesive, these tags will often outlast your assets.
Hanging Retro-Reflective	Hanging Signs offer high-visibility & promote warehouse awareness. Different options available for different applications.
High Temperature Asset Tags	Extra High Temperature (XHT) process creates a solution for high temperature applications using durable aluminum barcode labels up to 1200° F. High temperature metal labels are most commonly used for work-in-process (WIP) applications.

Inventory Management Software	A computer-based solution that gives organizations the ability to track all aspects of their inventory.
Magnetic Labels	Often used as inventory labeling solutions, durable magnetic labels serve as rack labels that easily can be relocated on demand. This is the ideal solution when you need to rearrange or relocate merchandise. These magnetic labels allow easy relocation and re-application of products.
Movable assets	Known as furniture and equipment that are not part of a building or the infrastructure. It also includes commonly moved business items such as computers, forklifts and other warehouse equipment.
Multi-Level System	Multi-Level Warehouse Rack Label System is designed to eliminate the need for long-range scanners and identify multiple rack levels with one all-inclusive label. These labels are a grouping of barcodes that contains specific information for each level of racking within a bay in a particular aisle. They are often color coded by level. These labels increase productivity while reducing inventory and fulfillment errors.
Pallet, Container, Tote and Tray Labels	Ideal for tracking your totes, trays, containers and other returnables.
Poly	Poly labels are perfect for rack labeling and are more durable and longer lasting than paper labels.
Property ID	Property identification involves labeling inventory and company assets with ID tags or labels to prevent theft and streamline processes.
QR Code	The three-dimensional barcode, or 3D barcode is based on a physically embossed or stamped set of encrypted data interpreted by variations in height rather than contrast between spaces and bars (as used in 2D barcodes). Often used in environments where labels cannot be easily attached to items. The most common 3d Barcode is the QR code.
Rack Labels	Used in warehouse applications, rack labels are available in Polyester and Magnetic options. Multi-level systems can eliminate the need for long range scanning and are designed to eliminate the confusion of which racks to scan.
Reflective	Reflective labels are a perfect solution for higher up racks and can be wrapped around the rack to scan upper level shelves.
Symbologies	Type of barcode pattern to express encoded data, also known as specific format language, readily understood when using a scanner to 'read' the barcode.
Tamper Evident Labels	Security Labels are available in Tamper-Evident Polyester Labels where removal from any surface leaves a permanent void pattern on the label – and Destructible Vinyl Labels, which break into tiny pieces upon removal, discouraging unauthorized asset transfers.
Two-Sided Retro-Reflective	These double-sided signs are used mainly for bulk-storage location marking. Different options available for different applications.
Vertical Rack Labels (aka Totem Labels)	Totem labels are designed to eliminate the need for long-range scanners and identify multiple rack levels with one all-inclusive label. A vertical location label is a grouping of barcodes that contains specific information for each level of racking within a bay in a particular aisle. They are often color coded by level. These labels increase productivity while reducing inventory and fulfillment errors.
Voiding Asset Tags	Also known as “Security Labels,” these are available in Tamper-Evident Polyester Labels, where removal from any surface leaves a permanent “Void” pattern on the label.
Warehouse Floor Bar Code Labels	Floor Identification marking solutions for bulk and staging locations.
Warehouse Rack Bar Code Labels	The most common type of warehouse label is found on rack beams. These labels mark each rack bay location and are used to identify products for storing, picking and inventory management. They typically include a one- or two-dimensional barcode image and human-readable letters and numbers

THINK UNLIMITED OPTIONS

YOUR LOGO

Custom: Because your Warehouse is Unique

Customize your facility and safety identification product to help keep your workplace and employees productive, operating efficiently, and safe.

Whether you need a custom message, a personalized design with original imagery and logos, or require a unique shape or size, turn to the Custom Experts™ at AccuformNMC to help your message shine through.

PERSONALIZE IT!

Custom Safety Identification:

- ✓ No Set-Up Fees
- ✓ No Minimums
- ✓ Unlimited Design Options
- ✓ Protected with Sign Muscle®
- ✓ Language Translations Available
- ✓ Proofs Upon Request
